### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under U.S.C. 121:
  - I. Claims 1, 3, 4, 7, 14, 15, 18-20, 22, 23, and 26, drawn to creating an initial knowledge model for an enhanced tree, classified in class 707, and subclass 100.
  - II. Claims 27 and 30, drawn to viewing of a node in a model, classified in class 707, subclass 102.

The inventions as presented above fall into two groups and are distinct, each from the other because of the following reasons:

Inventions as listed in Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to separately usable. In the instant case, invention of these two groups has separate utility such as follow:

Group I teaches creating an initial knowledge model as a tree that is used to output ranking rules associated with each node of the tree and contrast examples for each node. Group II teaches view of a node in a model that is used to map a multiple dimensional space onto two display dimensions.

Art Unit: 2162

Because these inventions are distinct for the reasons given above and have required a separate status in the art as shown by the different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFE 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
